***Hi! My name is  
Lyova. I live in  
Kirov region, in  
Ezhovo. The  
visiting card of  
Kirov region is  
Dymkovo toy.***

*In Russia, there were and there  
are a lot of folk crafts. My  
favourite folk craft – Dymkovo  
toy.*

***This name comes from Dymkovo settlement. First Dymkovo masters made clay whistles. Then they started manufacturing clay toys, which were brightly painted.***

***More often toys depict people and animals. I especially like the toys dogs that always cause a smile – they are funny, cheerful and beautiful.***

***Dymkovo toys are masterpieces.  
Artists who make them are  
talented and good people, and  
those man – made products are the  
bears of spiritual values.***

***Today you can see these cute toys  
not only on counters of shops of  
folk crafts, but also on the shelves  
in our apartments .***

***Dymkovo toys  
remind me of  
children's  
drawings: they  
are also bright,  
colourful, joyful,  
cheerful,  
optimistic.***

***If you are in Kirov,  
you should visit  
Dymkovo  
masters. You will  
like it.***

***Thank you very  
much!***
